The products manufactured by the company mentioned above are board grades which are used for food packaging.

They were examined by us according to the

"Methoden zur Untersuchung von Papieren, Kartons und Pappen für Lebensmittelverpackungen", Stand 2008, entsprechend der Vorschrift Nr. 80.56 in der Amtlichen Sammlung von Untersuchungsverfahren nach § 64 des Lebensmittel- und Futtermittelgesetzbuchs - LFGB,

("Methods for testing papers and boards for food packaging", state of 2008, corresponding to the method no. 80.56 within the Official Collection of Test Methods according to § 64 of the Foodstuffs and Animal Feed Code - LFGB),

as well as to the specific requirements of the

Guidelines of the Council of Europe on test conditions and methods of analysis for paper and board materials and articles intended to come into contact with foodstuffs, Technical Document no. 2, version 3 of 14 November 2007,

for the used raw materials, fabrication additives and special paper finishing agents as well as for the release of substances which might endanger health.

Furthermore, the transfer of certain elements was examined according to the

DIN EN 71, part 3 "Safety of Toys, Migration of Certain Elements", state of December 2014, and the content of heavy metal was determined according to the

Directive 94/62/EC of the European Parliament and of the Council of 20 December 1994, on packaging and packaging waste, Official Journal of the European Communities L 365/10 of 31 December 1994, last amendment by the Directive (EU) 2015/720 of the European Parliament and of the Council of 29 April 2015, Official Journal of the European Union L 115/11 of 6 May 2015.

Moreover, the production of the board grades was examined according to the

Commission Regulation (EC) No 2023/2006 of 22 December 2006 on good manufacturing practice for materials and articles intended to come into contact with food, Official Journal of the European Union No. L 384/75 of 29.12.2006, last amended by the regulation (EC) No. 282/2008 of 27 March 2008.

The board grades are in compliance with the rules of the

Regulation (EC) No 1935/2004 of the European Parliament and of the Council of 27 October 2004 on materials and articles intended to come into contact with food and repealing Directives 80/590/EEC and 89/109/EEC, Official Journal of the European Union L 338/4 of 13.11.2004, modified by app. no. 5.17 of the regulation (EC) No 596/2009 of 18 June 2009, Official Journal of the European Union L 188 of 18 July 2009, article 3,

as well as of the

Lebensmittel-, Bedarfsgegenstände- und Futtermittelgesetzbuch (Lebensmittel- und Futtermittelgesetzbuch - LFGB) in der Fassung der Bekanntmachung vom 3. Juni 2013 (BGBl. I S. 1426), zuletzt geändert durch Artikel 1 des Gesetzes vom 30. Juni 2017 (BGBl. I S. 2147), §§ 30 und 31,

(Foodstuffs, Consumer Goods and Animal Feed Code (Foodstuffs and Animal Feed Code - LFGB) in the version of the notification of 3 June 2013 (BGBl. p. 1426), last amendment by article 1 of the act of 30 June 2017 (BGBl. I p. 2147), §§ 30 and 31),

and are approved according to the

Deutsche Empfehlung XXXVI zur gesundheitlichen Beurteilung von Materialien und Gegenständen für den Lebensmittelkontakt im Rahmen des Lebensmittel- und Futtermittelgesetzbuches, 34. Mitteilung, Bundesgesundheitsblatt 10, 14 (1967), einschließlich 220. Mitteilung, Bundesgesundheitsblatt 59, 1365-1368 (2016), Stand vom 01.07.2016,

(German Recommendation XXXVI for the health-related evaluation of materials and objects for the contact with foodstuffs in the frame of the Foodstuffs and Animal Feed Code, 34th memorandum, Bundesgesundheitsblatt 10, 14 (1967), including the 220th memorandum, Bundesgesundheitsblatt 59, 1365-1368 (2016), state of 1 July 2016).

The demands of the

Resolution of the Council of Europe AP (2002) 1 on paper and board materials and articles intended to come into contact with foodstuffs of 18 September 2002,

and of the

Guidelines of the Council of Europe on paper and board materials and articles, made from recycled fibres, intended to come into contact with foodstuffs, Technical Document no. 3, version 2 of 10 June 2004,

are met by the board grades. Instead of the not yet evaluated Technical Document 1 on constituents, the list of fabrication additives of the German Recommendation XXXVI was consulted.

In addition, the board grades are in compliance with the French demands of the

Matériaux au contact des denrées alimentaires, Brochure no. 1227, Journal Officiel de la République Française, published on 15 July 2002, state of 2 April 2003

Matériaux au contact des denrées alimentaires, Brochure no. 1227, Journal Officiel de la République Française, édition mise à jour au 15 juillet 2002, dans la version du 2 avril 2003,

as well as of the

Décret n° 2007-766 du 10 mai 2007 portant application du code de la consommation en ce qui concerne les matériaux et les objets destinés à entrer en contact avec les denrées alimentaires, dernière modification par le décret n° 2009-1083 du 1 septembre 2009, abrogé le décret n° 92-631 du 8 juillet 1992 relatif aux matériaux et objets destinés à entrer en contact avec les denrées, produits et boissons pour l'alimentation de l'homme ou des animaux,

Decree no. 2007-766 of 10 May 2007 regarding the application of the consumer law, which concerns materials and articles intended for food contact, last amendment by decree no. 2009-1083 of 1 September 2009, supersedes Decree no. 92-631 of 8 July 1992 on materials and articles intended for contact with foodstuffs, products and drinks for men's or animals' food.

Furthermore, the board grades are in compliance with the demands of the

DIN EN 71, part 3 "Safety of Toys, Migration of Certain Elements", state of December 2014,
and of the

Directive 94/62/EC of the European Parliament and of the Council of 20 December 1994,
on packaging and packaging waste, Official Journal of the European Communities L 365/10
of 31 December 1994, last amendment by the Directive (EU) 2015/720 of the European
Parliament and of the Council of 29 April 2015, Official Journal of the European Union
L 115/11 of 6 May 2015,

regarding the heavy metal content.

Moreover, the board grades meet the demands of the

Commission Regulation (EC) No 2023/2006 of 22 December 2006 on good manufacturing
practice for materials and articles intended to come into contact with food, Official Journal
of the European Union No. L 384/75 of 29.12.2006, last amended by the regulation (EC)
No. 282/2008 of 27 March 2008.

Thus the board grades according to the sample material submitted may be used safely for food
packaging.

The board grades Uniboard S and Unistar may stand in direct contact with dry, non-fatty
foodstuffs and such kind of foodstuffs which are peeled, shelled or washed before consumption
and may also be used for secondary packaging. Dry, non-fatty foodstuffs with large surfaces
may be packed by using an appropriate intermediate packaging.

This certificate of compliance has a validity of 2 years. It consists of 5 pages.
